Verbos irregulares para QA

Oct 15, 2026 · @Enzo

Las tres formas verbales

Todo verbo en inglés tiene tres formas. Para los irregulares, ninguna sigue la regla del **-ed**.

Forma	Nombre técnico	Cuándo se usa	Ejemplo
Base	infinitivo sin "to"	Simple present, imperativo, después de modales (can, must, will)	*I write tests every day.*
Past simple	pasado simple	Acción completada en el pasado (momento específico)	*I wrote 20 tests yesterday.*
Past participle	participio pasado	Perfect tenses (have/has/had + PP) y voz pasiva	*I've written 200 tests this year.*

Regla de oro: después de have / has / had, siempre va el participio, no el pasado simple.

> ❌ I have wrote → ✅ I have **written** ❌ I have went → ✅ I have **gone**

Patrones de irregularidad

Hay cuatro patrones. Aprendé el grupo, no cada verbo por separado.

AAA — las tres formas son iguales

Base	Past simple	Past participle	Significado
cut	cut	cut	cortar, eliminar
let	let	let	dejar, permitir
set	set	set	configurar
hit	hit	hit	afectar, golpear
put	put	put	poner, colocar
cost	cost	cost	costar
read*	read	read	leer

*read: se escribe igual pero se pronuncia /rɛd/ en pasado y participio.

ABB — pasado = participio (≠ base)

Es el grupo más grande. Si sabés el pasado, ya tenés el participio.

Base	Past simple	Past participle	Significado
build	built	built	construir, armar

Base	Past simple	Past participle	Significado
bring	brought	brought	traer
buy	bought	bought	comprar
catch	caught	caught	atrapar, detectar
find	found	found	encontrar
have	had	had	tener
hear	heard	heard	escuchar
hold	held	held	llevar a cabo, mantener
keep	kept	kept	mantener, guardar
lead	led	led	liderar
leave	left	left	dejar
lose	lost	lost	perder
make	made	made	hacer, crear
meet	met	met	reunirse
say	said	said	decir
send	sent	sent	enviar
sleep	slept	slept	dormir
stand	stood	stood	aguantar, soportar
teach	taught	taught	enseñar
tell	told	told	contar, decir
think	thought	thought	pensar
understand	understood	understood	entender
win	won	won	ganar

ABA — participio = base (≠ pasado)

¡Cuidado! El participio vuelve a la forma base.

Base	Past simple	Past participle	Significado
run	ran	run	ejecutar, correr
come	came	come	venir
become	became	become	volverse, convertirse

ABC — las tres formas son distintas

Las más comunes en entrevistas:

Base	Past simple	Past participle	Significado
be	was/were	been	ser, estar

Base	Past simple	Past participle	Significado
begin	began	begun	comenzar
break	broke	broken	romper, fallar
choose	chose	chosen	elegir
do	did	done	hacer
fall	fell	fallen	caer, bajar
get	got	gotten	obtener, lograr
give	gave	given	dar
go	went	gone	ir
grow	grew	grown	crecer
know	knew	known	saber, conocer
see	saw	seen	ver
speak	spoke	spoken	hablar
take	took	taken	tomar
write	wrote	written	escribir

Top 30 para tu trabajo

Los que más vas a usar en entrevistas técnicas y en el día a día.

#	Base	Past simple	Participio	Significado	Ejemplo de entrevista
1	write	wrote	written	escribir	I've **written** test cases for REST APIs.
2	build	built	built	construir, armar	I **built** a CI/CD pipeline with Jenkins.
3	run	ran	run	ejecutar	I've **run** regression tests every release.
4	find	found	found	encontrar	I **found** a critical bug in production.
5	break	broke	broken	romper, fallar	I've never **broken** a production deploy.
6	do	did	done	hacer	I've **done** performance and security testing.
7	take	took	taken	tomar, asumir	I **took** ownership of the QA process.
8	see	saw	seen	ver	I've **seen** this pattern in large codebases.
9	give	gave	given	dar	I've **given** feedback on 50+ PRs.
10	go	went	gone	ir	The bug **went** undetected for two weeks.
11	send	sent	sent	enviar	I've **sent** weekly test reports to the PM.
12	tell	told	told	decir	I **told** the team about the regression.
13	know	knew	known	saber, conocer	I've **known** Selenium for three years.
14	lead	led	led	liderar	I **led** the QA effort for the v2.0 release.

#	Base	Past simple	Participio	Significado	Ejemplo de entrevista
15	make	made	made	hacer, crear	I've **made** over 200 automated test cases.
16	get	got	gotten	obtener, lograr	I **got** a 40% reduction in test time.
17	set	set	set	configurar	I've **set** up testing environments from scratch.
18	hold	held	held	llevar a cabo	I've **held** sprint retros for 2 years.
19	keep	kept	kept	mantener	I **kept** detailed logs of every test run.
20	understand	understood	understood	entender	I **understood** the requirement was ambiguous.
21	choose	chose	chosen	elegir	I've **chosen** Cypress over Selenium for this stack.
22	catch	caught	caught	detectar, atrapar	I **caught** the regression before it reached prod.
23	lose	lost	lost	perder	We **lost** no data after the migration.
24	begin	began	begun	comenzar	The sprint has **begun** and I'm already testing.
25	leave	left	left	dejar	I **left** comments on every failing test.
26	speak	spoke	spoken	hablar	I've **spoken** English in interviews before.
27	think	thought	thought	pensar	I **thought** it was a configuration issue.
28	hear	heard	heard	escuchar	I've **heard** good things about that framework.
29	meet	met	met	reunirse	I **met** the client to review acceptance criteria.
30	become	became	become	volverse	The bug has **become** a blocker.

Errores típicos

Los errores más comunes de hispanohablantes con verbos irregulares.

Error 1: usar pasado simple después de have

En español *hable* y *hablado* suenan muy distintos, pero en inglés algunos pares son similares y se confunden.

❌ Incorrecto	✅ Correcto	Regla
I have **wrote** the test	I have **written** the test	ABB → ABC: pasado ≠ participio
I have **went** to the meeting	I have **gone** to the meeting	went es solo pasado simple
I have **ran** 500 tests	I have **run** 500 tests	Grupo ABA: participio = base
I have **came** from a QA background	I have **come** from a QA background	Grupo ABA: participio = base

❌ Incorrecto	✅ Correcto	Regla
I have **saw** this error before	I have **seen** this error before	saw es solo pasado simple
I have **broke** the build	I have **broken** the build	broke es solo pasado simple
I have **took** ownership	I have **taken** ownership	took es solo pasado simple

Error 2: aplicar -ed a verbos irregulares

❌ Incorrecto	✅ Correcto
I **writed** the documentation	I **wrote** the documentation
I **finded** the bug	I **found** the bug
I **leaded** the team	I **led** the team
I **builded** the pipeline	I **built** the pipeline
I **thinked** it was a network issue	I **thought** it was a network issue

Error 3: confundir run (grupo ABA)

Como *run* en simple past es *ran*, muchos dicen *have ran*. No: participio de run es run.

> ❌ I have **ran** the tests three times. → ✅ I have **run** the tests three times.

Lo mismo con *come* → came → come y *become* → became → become.

Ejercicios

Mandá tus respuestas en el chat y las corrijo.

Ejercicio 1 — Completar la tabla

Escribí las tres formas de cada verbo.

Base	Past simple	Past participle
lead		
break		
see		
choose		
catch		
understand		
get		
run		

Ejercicio 2 — Corregir errores

Cada oración tiene un error. Reescribíla correctamente.

1. I have wrote more than 100 automated tests.
2. Last week I leaded a bug bash session.
3. The build broke because someone have forgot to update the config.
4. I have ran the regression suite and finded three issues.
5. We have went from 0 to 80% test coverage this year.

Ejercicio 3 — Simple past vs. present perfect

Elegí la forma correcta entre paréntesis.

1. I _____ (wrote / have written) a test script for that endpoint *yesterday*.
2. I _____ (found / have found) this type of bug *in every project I've worked on*.
3. The team _____ (built / has built) the CI pipeline *last month*.
4. I _____ (gave / have given) feedback on PRs *since I joined the company*.
5. I _____ (led / have led) the QA effort *during the v2.0 release in March*.

Ejercicio 4 — Frases de entrevista

Completá cada frase con el verbo entre paréntesis en el tiempo correcto.

1. *Tell me about a challenge.* — I once _____ (find) a critical bug 2 hours before a production deploy.
2. *What have you accomplished?* — I _____ (build) a test framework that reduced regression time by 60%.
3. *How long in QA?* — I _____ (work) in QA Automation for over 5 years and I _____ (use) Python and Selenium throughout.
4. *Tell me about leadership.* — I _____ (lead) a QA team of 4 during a platform migration last year.
5. *What tools do you know?* — I _____ (use) Cypress, Playwright, and Postman. I _____ (choose) Playwright for my last two projects.

Ejercicio 5 — Escribir libremente

Escribí 5 oraciones sobre tu experiencia real, usando verbos irregulares del top 30. Mezá simple past y present perfect para mostrar que sabés cuándo usar cada uno.
