How long	`How long + aux + S + V?`	*"How long have you been working in QA?"*

3. Preguntas indirectas (Indirect / Embedded questions)

Regla clave: En una pregunta indirecta NO hay inversión (el sujeto va antes del verbo, como en una oración afirmativa).
Directa: "Where do you work?" → Indirecta: "Could you tell me where you work?"

Inicio habitual	Ejemplo completo
Could you tell me…	*"Could you tell me what your testing process is?"*
I'd like to know…	*"I'd like to know how you prioritize test cases."*
Do you know…	*"Do you know when the release is scheduled?"*
I was wondering…	*"I was wondering if you use automated regression tests."*
Can you explain…	*"Can you explain how you handle test data?"*

4. Tag questions (muletillas de confirmación)

Regla	Ejemplo
Oración afirmativa → tag negativa	*"You've used Jira before, **haven't you?**"*
Oración negativa → tag positiva	*"You don't work with manual testing, **do you?**"*
El auxiliar de la tag = auxiliar de la oración	*"The tests passed, **didn't they?**"*

5. Preguntas con preposición al final

Estructura	Ejemplo
`WH- + aux + S + V + prep?`	*"Which team are you working **with**?"*
	*"What tool is this test written **in**?"*
	*"Who did you report the bug **to**?"*
